GRANT EXPERIENCE

Ongoing Research Support

2021 – present University of Missouri (\$10,000).
Maxwell Faculty Research Grant (PI: Zachary Massey):
Experimentally testing characteristics of cannabis warning labels in a national sample
Studying how cannabis warning-label characteristics influence consumers' message processing, attitudes and beliefs, and health intentions.
Role: Principal Investigator

Grants Under Review

2022 – Submitted to the National Institute on Alcohol Abuse and Alcoholism.
P60AA030406 (PIs: Denis McCarthy and Kenneth Sher):
Center on determinants of alcohol consumption and consequences (CDACC): The transition to legal drinking
Role: Principal Investigator of Pilot project “*Developing and testing PSAs about impaired driving from cannabis and alcohol co-use.*”

Grants Under Review

2022 – Submitted to the National Institute on Drug Abuse.

K01 DA057395-01A1 (PI: Zachary Massey):

Developing and testing warning labels for retail cannabis products.

Assessing consumer perceptions about cannabis warning labels, determining how different attributes of cannabis warning labels affect consumers, and testing how enhanced cannabis warning labels (vs. the industry standard) influence intentions and behaviors.

Role: Principal Investigator

Completed Grant Research

- 2019 – 2021 National Institutes of Health (\$1,273,138).
R01DA047397-01 (PIs: Lucy Popova & David Ashley):
The impact of design characteristics on the modification potential of electronic nicotine delivery systems
Comparing the effects of informational messages and those that combine information with emotional appeals on perceptions of harm of tobacco products, intentions to use tobacco products, and attitudes towards regulation of these products.
Role: Postdoctoral Research Associate
- 2019 – 2021 Robert Wood Johnson Foundation (\$358,678).
Award #76688 (PI: Lucy Popova):
Monitoring the rollout of IQOS in Atlanta
Monitoring the rollout of heated tobacco product IQOS to provide timely data on marketing and early adopters, with emphasis on priority populations.
Role: Research Collaboration Partner
- 2014 – 2020 National Cancer Institute, NIH (\$747,000).
K99/R00 CA187460 (PI: Lucy Popova):
Communicating harm of new tobacco products
Compared the effects of informational messages and those that combine information with emotional appeals on perceptions of harm of tobacco products, intentions to use products, and attitudes towards product regulation.
Role: Research Collaboration Partner
- 2019 – 2020 University of Oklahoma (\$1,000).
Robertson Research Grant (PI: Zachary Massey):
Social network analysis of immigrant organizations in Oklahoma
Exploring how social networks in immigrant cultural organizations influence the adoption of (mal)adaptive health behaviors.
Role: Principal Investigator
- 2015 – 2017 National Science Foundation, Division of Information & Intelligent Systems (\$549,000).
14526 (PI: Norah Dunbar):
Teaching bias mitigation through training games with application in credibility attribution
Designed, developed, and tested a serious video game for law enforcement

officers to provide deception detection training.
Role: Graduate Research Assistant
